Essential reading for Canadian physicians

CMAJ

The CMA's flagship publication is Canada's leading peer-reviewed general medical journal. Every 2 weeks *CMAJ* publishes original research, commentary and review articles of interest to clinicians, as well as research updates, public health articles, news and reflective articles about the practice of medicine.

cmaj.ca

Canadian Journal of Surgery

CJS publishes original articles, observations on surgical practice, commentary and reviews to meet the continuing medical education needs of Canada's surgical specialists. Published every 2 months, this peer-reviewed CMA journal is sponsored by 7 leading surgical societies.

cma.ca/cjs

Journal of Psychiatry & Neuroscience

This CMA journal publishes original research and review papers in clinical psychiatry and neuroscience related to major psychiatric disorders for an international audience. Published 6 times a year, *JPN* is the official journal of the Canadian College of Neuropsychopharmacology.

cma.ca/jpn

Also from CMA Publications

Canadian Journal of Rural Medicine

This peer-reviewed journal focuses on original articles, clinical skills, practice experiences and policy issues of particular interest to rural physicians. The *Canadian Journal of Rural Medicine* is published quarterly for the Society of Rural Physicians of Canada.

cma.ca/cjrm

Canadian Journal of Emergency Medicine

CJEM is a forum for peer-reviewed research, commentary, case reports and other articles of interest to emergency care providers in rural, urban and academic settings. This journal is published every 2 months for the Canadian Association of Emergency Physicians.

72 What is the optimal implementation of bright light therapy for seasonal affective disorder (SAD)?
R.D. Levitan

The *Journal of Psychiatry & Neuroscience* publishes original research articles and review papers in clinical psychiatry (adult and child) and neuroscience that relate to major psychiatric disorders, particularly schizophrenia, affective disorders and neurodegenerative diseases. The journal therefore provides a forum for original basic and clinical science research that will present its readership with an integrated perspective on current and emerging issues in clinical and biological psychiatry. In this respect, the *Journal of Psychiatry & Neuroscience* represents a new and unique concept in communication that will bring together the latest advances in both psychiatry and neuroscience.

La *Revue de psychiatrie & de neuroscience* publie des articles de recherches originales et des examens critiques en psychiatrie clinique (adulte et infantile) et en neuroscience, qui portent sur d'importants troubles psychiatriques et en particulier sur la schizophrénie, les troubles affectifs et les maladies neurodégénératives. La revue offre ainsi une tribune où l'on peut présenter des recherches originales en sciences fondamentales et cliniques, et qui exposera à ses lecteurs une perspective intégrée des enjeux courants en psychiatrie clinique et biologique. À cet égard, la *Revue de psychiatrie & de neuroscience* constitue un concept de communication innovateur des progrès les plus récents réalisés tant en psychiatrie qu'en neuroscience.

All editorial matter in the *Journal of Psychiatry & Neuroscience* represents the opinions of the authors and not necessarily those of the Canadian Medical Association (CMA). The CMA assumes no responsibility or liability for damages arising from any error or omission, or from use of any information or advice contained in the *Journal of Psychiatry & Neuroscience*, including articles, editorials, reviews, abstracts, letters and advertisements.

Tous les articles à caractère éditorial dans la *Revue de psychiatrie & de neuroscience* représentent les opinions de leurs auteurs et n'engagent pas l'Association médicale canadienne (AMC). L'AMC décline toute responsabilité civile ou autre quant à toute erreur ou omission ou à l'usage de tout conseil ou information figurant dans la *Revue de psychiatrie & de neuroscience* et les articles, éditoriaux, critiques, résumés, lettres et publicités y paraissant.

**CANADIAN COLLEGE OF NEUROPSYCHOPHARMACOLOGY
28TH ANNUAL MEETING**

**St. John's, Newfoundland and Labrador
July 2–5, 2005**

Fairmont Newfoundland Hotel

The theme of this meeting will be
“Brain Mechanisms in Psychiatric Disorders”

Highlights will include public and plenary lectures, awards lectures (Heinz Lehmann Award, Innovations in Neuropsychopharmacology Award, Young Investigator Award), symposia and poster sessions.

Plenary lectures will be delivered by Anthony Grace, University of Pittsburgh; Michael Meaney, McGill University (presenting the Memorial University of Newfoundland's Dr. John G. Williams Lecture in the Neurosciences); and Sidney Kennedy, University Health Network, University of Toronto.

A very exciting scientific program is shaping up for North America's oldest city
— St. John's, The City of Legends. Book early!
