The *Journal of Psychiatry & Neuroscience* publishes papers at the intersection of psychiatry and neuroscience that advance our understanding of the etiology, pathophysiology and treatment of psychiatric disorders. This includes studies on patients with psychiatric disorders, healthy humans, and experimental animals as well as studies in vitro. Original research articles, including clinical trials, and review papers will be considered.

All editorial matter in the *Journal of Psychiatry & Neuroscience* represents the opinions of the authors and not necessarily those of the publisher. We assume no responsibility or liability for damages arising from any error or omission, or from use of any information or advice contained in the *Journal of Psychiatry & Neuroscience*, including articles, editorials, reviews, abstracts, letters and advertisements.
